EDUCATION

Cornell University, College of Engineering, Ithaca, NY

Master of Engineering in Engineering Management (Early Admit), **GPA: 4.24**

Expected December 2026

Bachelor of Science in Mechanical Engineering, Dyson Business Minor for Engineers, **GPA: 3.53**

May 2026

College of Engineering Dean's List Spring 2023, Spring 2025, Fall 2025, Spring 2026

Selected Coursework: Product Design & Management • Interdisciplinary Design Concepts • Manufacturing • Mechatronics • Engineering Entrepreneurship • Engineering Economic and Financial Analysis • Data Analytics • Managing a Culture of Innovation

WORK EXPERIENCE

Engineering Aide, Con Edison, New York, NY

June - August 2026

- Constructed load vs. capacity diagrams for every area station using 20-year demand forecasts to calculate availability integrals
- Tested load scenarios against power flow diagrams to assess transmission system performance under varying demand conditions, developing a systems-level approach to evaluating design tradeoffs under real-world constraints
- Built an interactive web app mapping Con Edison's org and infrastructure, presented to senior leadership for the Intern Challenge

Product Engineering Intern, Tikkun Olam Makers, Tel Aviv, Israel

July - August 2025

- Redesigned "The UPick," a vacuum-based assistive device for wheelchair users with limited mobility to lift flat items
- Created and tested CAD models, cut and painted tubing, and soldered circuits to improve aesthetics and functionality
- Published finalized documentation to the TOM open-source platform, ensuring worldwide accessibility

Mechanical Engineering Intern, General Glass International, Secaucus, NJ

May - August 2024

- Verified and created Preventive Maintenance Plans, reviewed documentation, and consulted with maintenance technicians
- Conducted time studies, analyzed processes for efficiency improvement, and provided insights to streamline operations
- Identified and addressed causes of quality defects, assisted in resolving factors affecting product quality

ADDITIONAL LEADERSHIP EXPERIENCE

Elementary, Middle, and High School Tutor, Remote

September 2018 - Present

- Conduct engaging Zoom tutoring sessions, tailoring support to individual needs, facilitating academic growth, and enhancing performance and confidence before exams, assisting with all types of coursework

Teaching Assistant, Interdisciplinary Design Concepts, Cornell University, Ithaca, NY

August 2026 - Present

- Grade quizzes, prelims, and homework while providing ongoing support to students throughout the semester
- Proctor exams and evaluate student presentations, delivering consistent and constructive feedback

MAE Grader, Cornell University, Ithaca, NY

August 2025 - Present

- Evaluate homework, lab reports, and exams in Gradescope for System Dynamics Fall 2025, Heat Transfer Spring 2026, and Mechanics of Engineering Materials Fall 2026, providing consistent and constructive feedback and ensuring accurate evaluation

Engineering Peer Advisor, Cornell University, Ithaca, NY

May 2024 - December 2025

- Proactively co-planned and facilitated the first-year Engineering Seminar; leveraged personal experiences to mentor and build connections with first-year students; and promoted an inclusive environment through constructive communication

STEAM Counselor, Future Stars Day Camp, Purchase, NY

June - August 2023

- Co-led a STEAM-structured 7-week curriculum for 40 children, self-training on a 3D printer and teaching Python mini-lessons

PROJECTS

MENG Capstone Project, Sponsored by Adobe, Cornell University, Ithaca, NY

August 2026 - Present

- Lead product marketing strategy evaluating how Adobe Firefly can defend its value proposition against free AI competitors
- Conduct competitive and market research via IBISWorld, Mintel, and student interviews to ground strategic recommendations
- Deliver a final recommendations report and executive presentation to Adobe sponsors on pricing, GTM, and product strategy

EverSeat Senior Design Project, Cornell University, Ithaca, NY

August - December 2025

- Co-founded ModuBaby and designed EverSeat, a modular car seat system replacing 3+ products across 10+ years of use
- Executed FE structural analysis using ANSYS under FMVSS 213-inspired crash loading to validate safety compliance
- Led business case development, including market research, cost modeling, pricing strategy, and break-even analysis

SKILLS

Technical Skills: Fusion 360, ANSYS (FEA, CFD), Python, MATLAB, PSS/E, TARA

Product Development: Prototyping, DFMEA, TRIZ, QFD, BOM Management, Market Research, Cost Modeling, Canva

Fabrication: 3D Printing, Laser Cutting, CNC, Soldering, Hand Tools

Project Management: Team Leadership, Cross-Functional Collaboration, Stakeholder Communication
